

Month	Topic / subtopic	Learning outcome	Required Period	Activity based on topic	Teaching Aids	Remark
April	Basic numbers knowledge	1 to 500 number, 1 to 100 in words even or odd number, bigger & smaller number, 2 to 10 tables.	14 period	-	Smart board, no. chart.	
June	1. A Day at the Beach * Fun with blocks & strips * Let us make do * Counting through cards	* students will learn observing picture & counting numbers. * student will learn while playing blocks & strips. * student will make group of 10 objects & tell to answer.	8 period	using strips or blocks make group of 10	strips, blocks sticks	
	2. Shapes around us. * Surfaces, edges & corners of solid object * Fill the tables	Students will learn different types of shapes. with students discussion about the similarities in the shapes of various musical instruments student experiences surfaces, edges & corners of all objects. Student will write name of the object which have no corners, one corner three corners	9 period	using cardboard sheet make object with 1 face, 4 faces	Cardboard, musical instrument, shapes	
July	3. Fun with numbers * Pattern * Jump backward * Number window, Number chart	501 to 600 numbers say & write 2 to 15 tables I will make number cards of different numbers & place them on your ginkidi with they will learn	10 period	Number chart game Number window	Cardboard number card ginkidi	
	* F.A.T 2024-24	Revision & Exam.	-	-	-	

Month	Topic / subtopics	Learning outcome.	Required Period	Activity based on topic	Teaching aids	Remarks
Aug	4. Shadow story & shadow play * Fun with shadow * Trace the shapes * Origami fun.	student look the shadow play on smart board. they will learn fun with shadow. Inwards 101 to 150 Student will play catch the corner game. student explore various objects around them & find out their edges, corners & sides.		Making wall hanging using cutout of different shapes.	Smart board, different shapes	
Ma	5. Playing with lines. * What is straight * vertical, horizontal, slanting & curved	student will learn different types of lines. student learn how to make shapes using straight line. Inwards 151 to 200 601 to 700 numbers say & write. student will Revised number names, tables		Making chart of warty painting	chart paper, colours, shapes	
Sept.	6. Decoration for festival. (Addition & subtraction)	student will learn & complete the table of p.no. 50. student will learn addition by helping picture or from p.no. 51 * Addition. * 1 to 700 numbers. * Number name of 1 to 200		Making garland using 10 flowers	flowers, beads string.	
Oct.	Revision.	1 to 700 numbers, 2 to 15 tables. 1 to 200 number name, addition, & revision of 1 to 6 chapter.				

learning outcome:

Month	Topic / subtopics	learning outcome:	Required material	Activity based on topic	Teaching aids	Assessment
Aug	A shadow story or shadow play * Fun with shadow	student look the shadow play on smart board they will learn fun with shadow.		Making wall hanging using string cutout of different shapes	Smart board different shapes	
Fe	* Trace the shapes * Origami fun:	Inwards 101 to 150 Student will play catch the corners game. student explore various objects around them & find out their edges, corners & sides.				
12	5. Playing with lines * what is straight * vertical, horizontal, slanting & curved	student will learn different types of lines. student learn st how to make shapes using straight line. Inwards 151 to 200 501 to 700 numbers say & write. student will revised number name, tables		Making chart of wally painting	chart paper colours, shapes	
Sept	6. Decoration for Festival (Addition & Subtraction)	student will learn & complete the table of 9, 10, 5. student will learn addition by helping picture from 9, 10, 5 & Addition * 1 to 700 numbers * Number name of 1 to 200		Making garland using 10 flowers	flowers beads string	
Oct	Revision	1 to 200 numbers, 2 to 15 tables 1 to 200 numbers name, addition & Revision of 1 to 6 chapter.				
		S.A.T 2024-25 Exam.				

Month	Topics / Subtopics	Learning Outcomes	Required Period	Activity based on topic	Teaching aids	Remarks
Nov.	7. Rani's Gift. (Measurement)	<p>student will learn how to take measurement & keep record.</p> <p>student will learn taking length of different things.</p> <p>+ Compare the heavy & light object</p> <p>student will learn different types of balance.</p>	6	<p>estimate the weight of different objects around them in relation to other object.</p> <p>Make the balance.</p>	<p>Weighing machine, Tape scale.</p>	
Dec.	8. Grouping & Sharing (Multiplication & Division) + How many groups	<p>Student will learn multiplication by adding many times.</p> <p>Student will learn division by sharing method</p>	12	<p>Collect 24 buttons & arrange them in different & write multiplication fact.</p>	<p>Small buttons, smart board, beads.</p>	
	9. Which Season is it? Measurement of time & calendar Fun. + Activity & duration.	<p>student will learn about season</p> <p>student learn about summer, rainy winter & which different food, they eat in that season,</p> <p>which types of clothes they wear.</p> <p>how to seasons effect the daily lives of people.</p> <p>student learn about calendar months & their days</p>	5	<p>seasons chart, calendar use observe & tell information about.</p>	<p>Seasons chart, Calendar</p>
